Saturated with goodness!tm

Bali'Sun Virgin Coconut oil is simply the world's finest coconut oil. This biologically pure coconut oil is produced from fresh coconut milk using a unique chemical-free ultra cold process. The coconut oil is separated from the milk emulsion through a proprietary process executed within the shortest time to yield a crystal clear oil with the highest range and density of volatile flavour compounds. These compounds are composed mainly of lactones from the beneficial medium chain fatty acids (MCFAs), namely caprylic (C-8), capric(C-10), and lauric (C-12). This process enhances the oil's antioxidant properties for maximum stability and shelflife. The superior quality of Bali'Sun is reflected in its silky smooth taste and delicate coconut flavour and aroma. It has no unpleasant aftertaste. Bali'Sun is the ideal cooking oil. Use it for baking, frying and sautéing. You can also take it raw and savour its delicious taste right off the spoon or in smoothies and your favorite desserts. At temperature below 50°C it will solidify to coconut butter. Ingredients: 100% virgin coconut oil.
